

**To-morrow (Sunday)**  
**THE WORLD** will consist of 320 columns, and these 320 columns will be found instructive, entertaining and elevating to an unusual degree.

For instance:  
This is the season of candidates, and from to-morrow every reader of **THE WORLD** will know all about one of the most interesting men now throwing a shadow on the White House door.

## SENATOR JOHN M. PALMER.

This interesting personality has been studied by an able writer with as much care as the late Herschel could have bestowed on a newly discovered planet. His early life, his personality, his friendly views on whiskey and tobacco, his fine boys and his clock-peddling stories are dwelt upon. "The Gladstone of the West" may consider himself introduced to the East.

## MR. JAY GOULD and JIM FISK'S WIDOW.

An account of the queer transactions which have made Mr. Gould a little richer and Mrs. Fisk, widow of Gould's partner, almost a pauper. The story of the Grand Opera-House property. Dr. Parkhurst's question, "WHERE DID YOU GET THE \$10,000?" Is partially answered.

## MRS. SCHUYLER VAN RENSSLAER

writes for THE WORLD on  
**THE WEEK IN ART.**

Mrs. Van Rensselaer is unquestionably the best American authority on art questions. Her criticisms, to be published in **THE WORLD** each Sunday, will instruct and interest artists and art students. They will enable the ignorant, who WILL talk about art, at least to talk intelligently.

## RACE HORSES ASTIR.

Every racing man and every man who combines love of horses with the good sense that prevents betting will be interested in this article. It tells how all the great thoroughbreds have wintered and what their conditions and prospects are. The sad condition of one great racer and other interesting facts told for the first time.

## PENANCE FOR THE MIGHTY.

Many pictures, brimful of artistic feeling and sentiment, tell some great men and bores what things the patient public would like them to give up during Lent.

These are but a few of the features that will make this **SUNDAY WORLD** more cheering than breakfast or glad sunshine.

Lafado Hearn continues his series of letters from Japan. Webster describes the bookmaker's life.

A page is devoted to young men, telling them about their clothes and other vital matters. Another full page gives all the real-estate news of the week, and presents in compact form all the information that real-estate men and property-owners require.

A conscientious reporter in the interests of truth announces the fact that all lunatics are plain and that the fair Ophelia was probably homely. Bill Nye's Brain Works.

ALL IN THE **SUNDAY WORLD** TO-MORROW.

## BREAK IN THE G. O. P. LONDON THEATRICAL BOMB.

Republican Leaders Rebel Against Patterson's Rule.

Barney Biglin and John Nugent the Chief Recalcitrants.

John R. Voorhis Stays at the New York Democracy's Head.

It has been an open secret among New York politicians for several months that the relations between the district judge and the Republican party have not been altogether cordial. The story that these district leaders have openly rebelled against the leadership of Patterson, who is the Chairman of the County Executive Committee, created a sensation this morning.

It was not believed that Thomas C. Platt would allow his local leaders to get into such a rebellious state on the eve of an important campaign, such as is soon to be inaugurated, but the announcement was confidently made to-day that six of the twenty-four Assembly district leaders declared that they will no longer recognize Patterson, and that if Mr. Platt desires their support, and that of their friends, he must treat with them personally.

The leaders named as in revolt are: John Collins, of the Fourth; George Hilliard, of the Twelfth; John E. Nugent, of the Fourteenth; Bernard Biglin, of the Eighteenth; John H. Connor, of the Twentieth; and Frank Raymond, of the Twenty-third.

**PATRONAGE THE BANE OF CONSTITUTION.**  
The trouble is said to have arisen over the disposition by Patterson to patronage. He is charged with having taken care of his friends and relatives, to the neglect of the organization.

It is but a few weeks ago that ex-Governor John H. Nugent offered a resolution at the meeting of the County Executive Committee providing for the appointment of a Patronage Committee, relieving Patterson of the patronizing business.

This resolution was withdrawn under the pressure of a demand for harmony, but only after Patterson had made an elaborate promise for the future.

Ex-Governor Nugent's resolution followed closely on the announcement by Patterson that he proposed to support John H. Connor's application for the position of Superintendent of the Ellis Island Buildings.

Mr. Nugent thought this action unwarrantable, in view of the fact that he, who is considered the strongest of all the Republican leaders in the city, personally, and who has been outside the grasp of political patronage for many months, should be so easily won over to support a man already holding a position as Superintendent of the Ellis Island Buildings.

Mr. Nugent thought this action unwarrantable, in view of the fact that he, who is considered the strongest of all the Republican leaders in the city, personally, and who has been outside the grasp of political patronage for many months, should be so easily won over to support a man already holding a position as Superintendent of the Ellis Island Buildings.

One of the conditions on which Patterson was allowed to continue as the patronage dispenser was that he should not be associated with him.

Mr. Brockton lacked experience as a politician. He was not in sympathy with the sort of politics, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work.

These gentlemen are said to have gone to Mr. Platt with their grievances, and declared that they would positively have no further dealings with the district judge, who is the patronage dispenser.

All of Mr. Platt's pleading and representation that this is a Presidential year and the result will be a gain to the party, and that the result will be a gain to the party, and that the result will be a gain to the party.

Two Dangers to the G. O. P.  
The district leaders pointed out that there is no such thing as a free lunch, and that the result will be a gain to the party, and that the result will be a gain to the party, and that the result will be a gain to the party.

Mr. Brockton lacked experience as a politician. He was not in sympathy with the sort of politics, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work.

Mr. Brockton lacked experience as a politician. He was not in sympathy with the sort of politics, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work.

Mr. Brockton lacked experience as a politician. He was not in sympathy with the sort of politics, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work.

Mr. Brockton lacked experience as a politician. He was not in sympathy with the sort of politics, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work, and the result was that Patterson attended to all the work.

## MISSOURI'S BLESSED CARGO.

The Big Steamship Sails To-Day to Relieve Starving Russians.

Laden with Flour and Corn Donated by Big-Hearted Americans.

There was haste and hard work this morning on board the steamship Missouri as she lay against North river pier 57, at the foot of West Twenty-seventh street. Smaller vessels were emptying cargoes of flour, cornmeal and other food stores into the hold of the big steamship, preparatory to her start this afternoon for Liban, on the Baltic Sea.

A noble cargo it was! There were more than 5,000,000 pounds of flour and cornmeal, donated by big-hearted Americans, and the Missouri was to sail this afternoon for Liban, on the Baltic Sea.

The Missouri was placed at the disposal of the Russian Relief Committee of the North-western Association, and she was to sail this afternoon for Liban, on the Baltic Sea.

The Missouri was placed at the disposal of the Russian Relief Committee of the North-western Association, and she was to sail this afternoon for Liban, on the Baltic Sea.
